About us

MJKB Group Private Limited is a professionally managed organization established with the vision of delivering excellence, quality, and trust across its business operations.

MJKB Group Pvt. Ltd. is a premier, Manufacturer, exporter & importer company specializing in the natural and organic products sector. We pride ourselves in the sourcing, manufacturing and supplying the finest quality Jaggery, Khandsari (Desi Khand/Raw Sugar), diverse varieties of Rice.

Hot washed PET flakes. Our commitment is to promote health, sustainability, and eco-friendly Manufacturing and trading practices that benefit our customers and the environment.

The company is backed by the strong foundation and legacy of KB And Company, a proprietorship firm with a proven track record in the industry.

KB And Company has been successfully operating for over 5–6 years and carries a combined industry experience of more than 20 years. Over the years, the firm has built a strong reputation through consistent performance, ethical business practices, and long-term relationships with clients and partners.

With deep market knowledge, operational expertise, and a customer-centric approach, the group has achieved a remarkable annual turnover exceeding INR 150 Crore. This strong financial performance reflects the company's reliability, scalability, and capability to handle large-volume operations efficiently.

MJKB Group Pvt. Ltd. has been formed to expand the group's vision, strengthen its corporate structure, and explore new growth opportunities while continuing the legacy of trust, quality, and excellence established by KB And Company.

The group remains committed to delivering superior value, maintaining high standards of professionalism, and building sustainable business partnerships globally.

With a strong focus on natural purity and organic integrity, MJKB Group Pvt. Ltd. has established trusted partnerships across India and globally, ensuring consistent product excellence. We empower farmers and producers by fostering organic farming practices and sustainable production methods.

Our modern technology adoption for Manufacturing, packing, and exporting, quality assurance processes guarantee timely deliveries and premium-grade products tailored to meet the evolving needs of international markets.

Mission

Our mission at **MJKB Group Pvt. Ltd.** is to become a dynamic leader, globally in the field of natural and organic product manufacturer, Importer & Exporter by consistently delivering superior, eco-friendly products that enrich lives. We strive to build sustainable value chains that support farmers, protect the environment, and exceed customer expectations through innovation, integrity, and quality.

Vision

To be the most trusted and preferred partner in the global natural and organic trade industry, driving positive change through sustainable sourcing, ecofriendly farming, manufacturing, trading at cutting-edge practices, and meaningful collaborations that nurture health and environmental balance worldwide.

Core Values

Our expertise- only the finest, purest natural and organic products.

Sustainability: Promoting eco-friendly Farming, Manufacturing and Trading.

Integrity: Transparent, ethical business conduct.

Customer Focus: Meeting and exceeding client needs.

Innovation: Continuously improving processes and products.

Premium Quality: Commitment to 100% Pure natural, and organic products.

Our Products

Jaggery

We offer an extensive range of organic jaggery, to suit diverse preferences and applications:

Khandsari (Desi Khand / Raw Sugar)

Khandsari is the natural, unrefined raw sugar made by evaporating sugar cane juice without chemical refining. It preserves beneficial minerals and offers a rich caramel taste with a lower glycaemic index, making it an excellent healthier sweetener alternative.

Rice

MJKB Group Pvt. Ltd. is the leading manufacturer and exporters of multiple types of premium rice, as Golden Sella-1121 rice, Basmati rice, Basmati steam rice and various other varieties.

Hot Washed PET Flakes

Our hot-washed PET flakes are recycled from natural and coloured PET bottles and processed to maintain cleanliness and high quality, catering to various industrial recycling products.

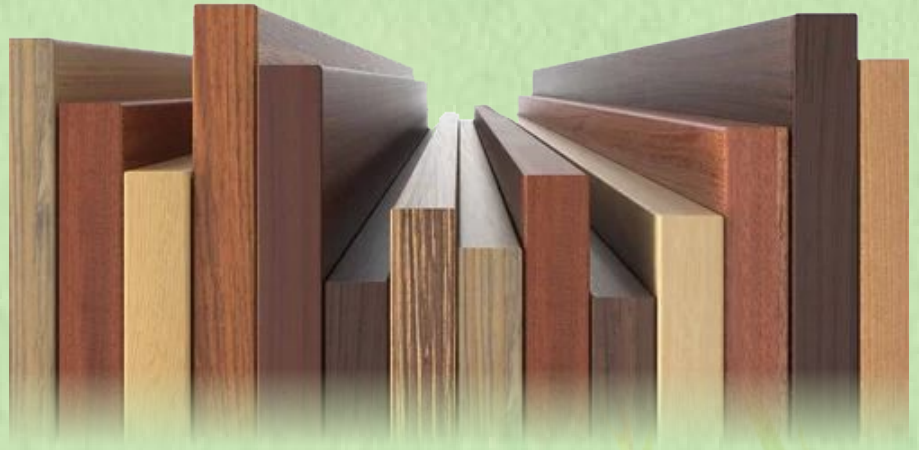

Varity: Manufacturing and exporting of vast ranges product as rPET flakes (Natural, Green, Brown & Mixed colours) for various applications as below,

- i) B to B, grade ii) Pet Film grade
- iii) Mono filament grade iv) rPOY grade
- v) rPSF (Recycle polyester staple fibre) grade
- vi) rPET strap grade

Plywood

Plywood is an engineered wood product made by gluing thin wood layers (veneers) with alternating grain directions, creating a strong, stable sheet used widely in construction, furniture, and more, known for durability, flexibility, and cost-effectiveness compared to solid wood, with various types defined by wood species and adhesive (like waterproof WBP or low-emission E0/E1) for different applications. It's made by peeling logs into veneers, drying them, and then pressing layers with glue, offering superior resistance to warping and cracking than natural timber.
